PROFESSIONAL SUMMARY

Electrical and Electronics Engineering student at Yasar University specializing in telecommunications, signal processing, and wireless communication systems. Proficient in system modeling, simulation, and analysis with MATLAB, Simulink, Proteus, and Unity. Strong programming background in Python, C++, and C# for data processing, scripting, and workflow automation. Familiar with RESTful API integration, test automation concepts, and AI-assisted engineering workflows.

EDUCATION

B.Sc. in Electrical and Electronics Engineering

Yasar University, İzmir, Turkey | Oct 2023 – Present (Junior Year)

- Faculty of Engineering, English-medium instruction
- 50% Merit-Based Scholarship Recipient
- GPA: 2.82 / 4.00
- Relevant Coursework: Signals and Systems, Electromagnetic Theory, Digital Communications, Circuit Analysis

TECHNICAL SKILLS

- Simulation and Analysis: MATLAB, Simulink, LTspice, Proteus, KiCad
- Programming: Python, C++, C#, Java
- AI and Machine Learning: AI-assisted engineering workflows, prompt engineering, AI-driven data analysis and automation
- CAD and 3D Design: AutoCAD, Blender
- Game Engines: Unity (C# scripting)
- Project Management: Microsoft Project
- Office: Microsoft Word, Excel, PowerPoint
- Digital Media: Adobe Photoshop, Google Ads, Meta Ads

KEY COMPETENCIES

- Programming and Software Development: Python for scripting, data processing, and workflow automation; RESTful API integration and backend concepts with C# and Java; interest in IT tooling and automated testing pipelines.
- Telecommunications and Signal Processing: Digital and analog communication systems, modulation techniques, and signal analysis using MATLAB and Simulink.
- MATLAB and Simulink: System modeling, control system design, signal processing simulations, and data visualization for engineering applications.
- AI Integration: Using AI tools to optimize engineering processes, automate repetitive tasks, and improve problem solving.

PROFESSIONAL EXPERIENCE

Cybersecurity Intern

Yaşar Bilgi İşlem ve Ticaret A.Ş., İzmir, Turkey | Internship | Jul 2026 – Aug 2026

- Completed a cybersecurity internship within the company's IT department, gaining hands-on exposure to corporate information security practices.

Digital Media Expert

Xoxo The Mag - Co Production, İstanbul, Turkey | Full-time | Sep 2021 – Jul 2023

- Managed end-to-end project coordination from strategic planning to final delivery.
- Executed and optimized performance marketing campaigns on Google Ads and Meta Ads, analyzing metrics to maximize ROI.
- Created professional visual content and marketing materials using Adobe Photoshop.
- Developed and implemented digital media strategies to expand reach and audience engagement.
- Coordinated cross-functional communication with stakeholders and oversaw delivery logistics.
- Established structured digital archiving systems for efficient visual asset management.

Volunteer, Kitchen Operations

Turk Fatih Tutak (Michelin-Starred Fine Dining), İstanbul, Turkey | Sep 2021 – Jan 2022

- Supported operational and culinary tasks under world-class chefs in a high-pressure fine dining environment.
- Maintained strict quality standards and attention to detail under tight time constraints.
- Adapted to diverse responsibilities within a rigorous service hierarchy.

CERTIFICATIONS

- Core MATLAB Skills (Learning Path) – MathWorks, 2026
- Core Signal Processing Techniques in MATLAB (Learning Path) – MathWorks, 2026
- Simulink Fundamentals – MathWorks, 2026
- Power Systems Simulation Onramp – MathWorks, 2026

LANGUAGES

- Turkish: Native
- English: Upper-Intermediate (B2)

ADDITIONAL INFORMATION

- Nationality: Turkish
- Military Status: Exempt
